TRANSPORT

Varley Transport is dedicated to delivering top-tier transportation and logistics services throughout Western Australia.

EXECUTIVE SUMMARY

At Varley Transport, we're more than just a logistics company – we're a legacy of dependable transport solutions across Western Australia. With 40 years under our belt, we've grown from a dedicated bulk fuel distributor into a multifaceted logistics provider, servicing industries that keep WA moving. Our commitment to safety, efficiency, and innovative practices sets us apart, allowing us to meet our customers' needs, on time, every time. Sustainability is woven into our operations as we strive to not only deliver but to also protect and serve our community.

At Varley, we take pride in building reliable, long-term partnerships – because your goals are our goals, and together, we're moving WA forward.

INTRODUCTION TO VARLEY TRANSPORT

Founded in 1985 by Murray and Roxy Lumsden in the heart of Varley, Western Australia, Varley Transport was built on strong roots in WA's agricultural and logistics landscape. Starting as a bulk fuel distributor in the Lakes Region, we've since evolved into a trusted partner for industries far and wide. Today, our services reach beyond fuel, offering specialised solutions that adapt to the changing needs of WA's businesses.

With decades of expertise, we're still the same dependable family-owned company we were in the beginning, but our reach and capabilities have grown to meet the demands of an ever-evolving transport sector.

Our story spans decades of growth, driven by purpose.

OUR HISTORY

Our story began in the Lakes Region of Western Australia, where Varley Transport earned its stripes delivering millions of litres of fuel to local farmers. As our reputation grew, so did our ambitions. We ventured into bulk haulage, broadening our reach into the earthmoving and mining industries.

A significant milestone came with our acquisition of Earthex Logistics Pty Ltd in Port Hedland, enabling us to bring specialised transport solutions to one of WA's key mining regions. This move was followed by the establishment of our Beacon depot in 2011, and by 2012, we'd set up a permanent base in Forrestdale, securing our foothold in Perth's metropolitan area.

In 2015, Varley Transport took another leap forward with the acquisition of R.S. Gill Transport, allowing us to expand into livestock transportation. Just a few years later, we strengthened our fuel haulage capabilities by acquiring Trojan Haulage in 2018, adding bulk fuel transport to our ever-growing list of services.

Our commitment to meeting WA's diverse transport needs didn't stop there. In 2023, we acquired the Waste Meat and Refrigerated Food Distribution divisions from Damien Cole Group Pty Ltd, solidifying our presence across multiple essential sectors.

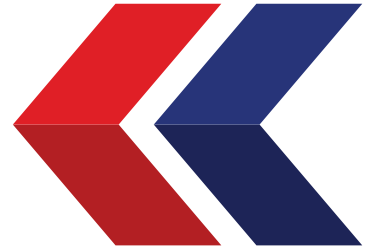

Today, Varley Transport operates under four distinct pillars:

- **Varley Energy** (Fuel, Gas)
- **Varley Agriculture** (Agricultural Commodities)
- **Varley Recycling**
- **Varley Refrigeration**

With a presence across strategic locations, including Forrestdale, South Guildford, Kalgoorlie, Varley and Port Hedland, we're poised to continue our journey of growth, innovation, and reliable service throughout WA and beyond.

Varley Transport offers comprehensive transport solutions tailored to Western Australia's industries.

WHAT WE DO

Varley Transport delivers specialised logistics solutions across Western Australia, offering a comprehensive range of transport services tailored to meet the demands of WA's industries. Our commitment to efficient, safe, and reliable service underpins everything we do.

- **Recycling Transportation and Logistics**
 - Raw Material Transportation
 - Trusted supply chain partner for raw material
 - Safety and Compliance
- **Refrigerated Food and Time-Sensitive Product Transportation**
 - Specialist Logistics and Distribution Solutions
 - Last Mile Distribution
 - Tailored Solutions for Every Customer

INDUSTRIES WE SERVE

Varley Transport proudly partners with a wide range of industries, bringing adaptability and tailored expertise to every job. Our solutions are designed to ensure that every load reaches its destination safely and on time, meeting the specific needs of each sector we serve, including:

- **Bulk Fuel and Gas**
- **Agricultural Products**
- **Food Manufacturing**
- **Mining and Earthmoving**
- **Retail and Food Distribution**
- **Recycling and Waste Management**

A word from our Director.

"As a family-owned business in Western Australia, we know firsthand the value of reliability and trust in the transport industry. Every decision we make—from investing in advanced safety technology to expanding our services—is driven by our commitment to our people, our clients, and the communities we serve.

*Whether it's fuel, agricultural goods, or refrigerated products, our goal is to deliver a service that goes beyond logistics—it's about building dependable, long-term partnerships that WA's industries can count on, **now and into the future.**"*

Callum Lumsden
Chief Executive Officer, Varley Transport

Reliability you can trust

Everything we do is driven by a commitment to our people, our partners, and our environment.

OUR CULTURE AND VALUES

Safety

Safety is our top priority. We maintain a strong safety culture and are committed to ensuring the safety of our drivers, team members, and the communities we operate in. Our advanced safety technology and rigorous training programs set high standards for safety.

Sustainability

Varley Transport is a leader in environmental sustainability. We focus on energy management, reducing emissions, and minimising our environmental impact through various initiatives. Our commitment to operating responsibly extends to our choice of equipment, fuel economy, and tyre performance.

Community Support

We believe in giving back to the communities that support us. By partnering with local clubs and associations, Varley Transport actively contributes to building thriving, resilient communities throughout Western Australia. From youth programs to regional initiatives, we're proud to play a part in strengthening the places where we live and work.

Flexibility and Adaptability

Our flexible and adaptable approach allows us to provide tailored solutions for our customers. We work closely with our partners to understand their supply chain needs and provide cost-effective, customised services.

Excellence in every vehicle and every workshop. That's us.

WHAT SETS US APART

▸ Commitment to Safety

At Varley Transport, safety is more than a priority—it's embedded in everything we do. We continually invest in cutting-edge technology and rigorous training to uphold the highest safety standards for our drivers, team, and communities, ensuring a secure journey from start to finish.

▸ Cutting-Edge Technology

Our operations are powered by proprietary logistics software, state-of-the-art fleet tracking, and robust safety features. This advanced technology enables us to deliver efficient, reliable, and secure transportation solutions that meet the demands of our customers, day in and day out.

▸ Sustainability Leadership

Leading the way in environmental responsibility, Varley Transport is committed to reducing our environmental impact. Through energy management initiatives, emission reductions, and mindful equipment choices, we're taking meaningful steps to minimise our footprint and protect the environment for future generations.

▸ Community Engagement

We believe strong communities are the backbone of WA, and we actively contribute to their growth. By supporting local clubs and associations, Varley Transport reinforces its commitment to building thriving communities across Western Australia.

Embedding our values in every aspect of our operations.

OUR RESPONSIBILITIES

▸ Safety

The safety of our drivers, team members, and the community is our foremost responsibility. We leverage advanced safety technology and implement rigorous training programs to uphold uncompromising safety standards across all of our operations.

▸ Community Support

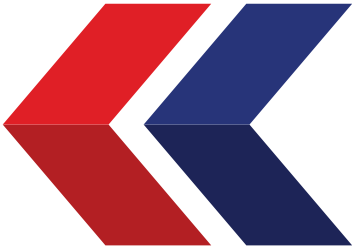

Supporting the communities we serve is a core responsibility. Through active partnerships with local clubs and associations, Varley Transport contributes to the well-being and resilience of communities throughout Western Australia.

▸ Sustainability

Our commitment to environmental sustainability is woven into our everyday practices. From proactive energy management and emissions reduction to responsible equipment choices, we're focused on operating with a minimal environmental footprint.

▸ Customised Solutions

We understand that each customer has unique supply chain needs. By providing tailored transportation solutions, we responsibly manage our clients' logistics, offering cost savings, flexibility, and efficiency.

Start your next journey with Varley Transport.

CONCLUSION

Varley Transport stands as a trusted partner in Western Australia's logistics landscape, dedicated to delivering specialised, reliable transportation solutions. With a legacy built on excellence, a strong commitment to safety, and a proactive focus on sustainability and innovation, we continue to meet our customers' diverse needs.

At Varley Transport, we're proud to uphold our reputation as a leading force, driving WA's industries forward with integrity and reliability.
